Limited to **50 seats**  
Audience: *CIO, LOB : COO, CTO, CMO, Digital Transformation Officer, Chief Strategy Officer, Chief Data Officer, Operation leader.*

Digital Transformation is a US\$20 trillion market opportunity over the next 5 years. All industries are investing in new digital customer experiences. How well organizations connect with their customers, no matter who the customer is, is today's business differentiator. Organizations need to redefine how they engage with customers. Engagement needs to be more efficient, more personal, and more predictive. A complete connection to the customer depends on how well an organization can pull data from across the entire organization, connect to external data, apply new applications for insight, and rapidly orchestrate it through the right channel. At this session, IBM is bringing the world famous "Escape Room" concept. A uniquely engaging live event experience to increase awareness about the cloud integration offerings.

**Agenda:**

9:00AM Registration  
10:00AM Welcome and Opening Remarks by **Sarene Lee**, General Manager, Cloud IBM Malaysia

A live interactive event experience that challenges you to solve clues, collect the 6 infinity stones and escape the room. Compete in teams, be the first to solve all 6 levels - live the experience, enjoy and learn!  
11:00AM Closing keynote: Reinventing Client Experiences across Industries.

**10:00am - 12:00pm**

**TechXperience by Fintech Lab - Fintech Lab IDE Programme (FLIP)**

Venue: *Level 9, Menara HLA, No 3, Jalan Kia Peng, 50450 Kuala Lumpur*  
Limited to **40 seats**

A role-play simulation case-study based where participants will be able to experience a real-life situation within Islamic Digital Economy (IDE) ecosystem and act upon the challenges in order to find solutions and make business decision. This simulation game allows participants to put themselves in different characters' shoes that are involved in the IDE ecosystem and to practice decision making using information provided. At the end of the programme, participants will be able to understand the differences and similarities of the Shariah-compliant businesses with conventional ones.

**The 5 Key IDE Roles Involved:**

- Shariah Advisor
- Startup Company
- Capital Provider
- Regulator
- Other Consultants

**The simulation of the play will be based on different scenarios:**

- Market segment
- Startup phase
- Different level of IDE compliant

**10:00am - 11:00am**

Limited to **20 seats** (pre-registration requires)  
Audience: *Leaders of developer communities in Malaysia*

Developer Circles from Facebook is a program designed to create locally organized communities for developers. These communities are meant to educate and provide a forum for discussion and knowledge sharing around topics that are top-of-mind for developers in a particular market.

We are inviting leaders of developer communities to join us for an information and networking session to learn more about the programme and about becoming a Developer Circle Lead. Successful Developer Circle Leads are people motivated by community organizing, collaboration and sharing their knowledge. Technical background, experience in development and community management are common assets among successful Leads.

Facebook is a company that grew from the developer community, and Developer Circles is a program aimed at making local developers stronger at a global scale. We are creating communities for developers to collaborate and share knowledge because we believe in empowering developers around the world to learn from each other, and benefit from the products, services and best-practices that Facebook has established. For more information and to register your participation, please visit <https://developercirclesmalaysia.splashthat.com/>

The average age of a company listed on the S&P 500 has fallen from almost 60 years old in the 1950s to less than 20 years currently. As Malaysia's first accelerator programme that pioneered Design Sprints & Design Thinking Methodology, 1337 Ventures has utilized its experience in launching disruptive businesses to help corporations such as Khazanah Nasional, Digi, and Naza to transform and competent to stay relevant to the industry. Learn how we transform company's mentalities, help them launch new products in less than 9 months, and create new experiences for the ever-changing consumer trends. See how we have amalgamated 5 years of proven steps to innovation in our 2-hour session that has not only transformed corporates, but bring ideas to exit in just 12 months.

Presented by Bikes Lakhmichand, Founder of 1337 Ventures
